

Safeguarding Reflection Questions for School Leaders and DSLs

How often do you:

01

Re-visit training from your CPD sessions, including the e-learning courses you run for staff?

02

Check that everyone in your school has learnt and retained the information you need them to?

03

Evidence your training so you could produce it as necessary for an external inspector?

04

Ask if all staff, including governors, have really 'read and understood' your school's safeguarding policy?

05

Review the support given to your Designated Safeguarding Leads so they can carry out their jobs effectively?

06

Review and update your school safeguarding policy to ensure it is up-to-date and includes the correct statutory guidance?

07

Review your school website to ensure you are promoting a safer school culture?

08

Evaluate your safer recruitment practices and provide training for Senior and Middle Leaders, HR, School Governors and Board of Directors?

09

Review and evaluate your safeguarding protocols for their effectiveness in identifying 'warning signs' in students, or dealing with their concerns during school closures or now as we begin to open up our schools?

Safeguarding Offering 2021/22
