

# Safeguarding Knowledge Check Game

## Instructions for the Activity

This game requires an adjudicator and at least two players. It can be played in different formats: either displayed on a screen with staff divided into teams and a facilitator acting as the adjudicator, or printed out for smaller groups. Whichever method you choose, it's important to encourage players to discuss the terms and answers to reinforce learning.

For small groups, print the game on an A3 sheet. If playing with larger groups or teams, you can display the game on a presentation screen.

## Setup:

- Each group of players will need a dice.
- Each player or team will need a counter (if playing on a screen, these can be represented as movable spots).

## How to Play:

- The adjudicator refers to the answer sheet to determine if a player's answer is correct.
- If the answer is correct, the player moves up the white arrow.
- If the answer is incorrect or unknown, the player moves down the purple arrow.

## Resources Needed:

- A3 printed game sheet
- Dice for each player or team
- Answer sheet for the adjudicator
